Job Description
Summer Intern – Land Planning Market

Our land planning team leverages the expertise and collaborative thinking of civil engineers, landscape architects and land surveyors to provide custom solutions that help grow livable communities. The Land Planning Market focuses on development of land for retail, commercial, healthcare, industrial, and residential projects.

Responsibilities:
- Perform introductory engineering assignments and modify work from designs by others.
- Collaborate with team leadership through all phases of the design process, from design concept inception through completion of construction documents.
- Assist in the preparation of site improvement construction plans, supporting documents and permit applications on small to large, complex to simple projects located across the U.S.
- Assist in Construction Administration, including jobsite visits.
- It is expected that this individual will work in the home office alongside of other Gresham Smith team members.
- Assist on Land Survey crew as necessary.

Minimum Qualifications:
- Currently working towards a Bachelor’s/Master’s degree in Civil Engineering, Environmental Engineering or Landscape Architecture from an accredited university.
- Basic knowledge of AutoCAD and/or AutoCAD Civil 3D software.
- Ability to interact professionally and comfortably with a variety of personalities and communication styles and build and maintain excellent interpersonal relationships in a collaborative environment.
- Proficient in Microsoft Office applications, particularly Word and Excel.
- Strong organizational and time management skills.
